

HE HAD A DREAM FOR A BETTER AMERICA

MLK DAY OF SERVICE
JANUARY 18, 2016

“Life’s most persistent and urgent question is, ‘what are you doing for others?’”

- Martin Luther King Jr.

YFU founder and Nobel Peace Prize nominee Dr. Rachel Andresen also had a dream to build peace through international youth exchange:

“

“I did not do it alone. There are people by the thousand who have given themselves to make this dream come true. It became their dream, too.”

On this Martin Luther King Day of Service 2016, we ask that you help honor the memory of Dr. King and Dr. Andersen by serving in your local community.

- Encourage international students to make a presentation about their home country to their classmates, the PTA and other organizations.
- Hang a YFU flyer in your school.
- Make an announcement to your American students about the opportunities available to them to study abroad.

All of our incoming students have dreams as well. Start your Day of Service by forwarding the YFU Host Family application yfuusa.org/applytohost to community members who might help a student achieve the dream of exchange.
