

HE HAD A DREAM FOR A BETTER AMERICA

MLK DAY OF SERVICE
JANUARY 18, 2016

“Life’s most persistent and urgent question is, ‘what are you doing for others?’”

- Martin Luther King Jr.

YFU founder and Nobel Peace Prize nominee Dr. Rachel Andresen also had a dream to build peace through international youth exchange:

“

“I did not do it alone. There are people by the thousand who have given themselves to make this dream come true. It became their dream, too.”

On this Martin Luther King Day of Service 2016, we ask that you help honor the memory of Dr. King and Dr. Andersen by assisting us with our dream. Join YFU in opening minds and hearts, enabling learning that transforms lives and helps to make us citizens of one world.

- Wear something YFU branded to work today.
- Ask your international students to make a presentation on their home country or school to their classmates.
- Hang a YFU flyer – at the gym, at work, at a restaurant or even your local coffeeshop.

All of our incoming students have dreams as well. Start your Day of Service by forwarding our Host Family application link yfuusa.org/applytohost to a family you know who could help a student achieve their dreams.
